Allowable Subject Matter

Claims 1 and 10-15 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 1 and 10 are allowable over the prior art because Claim 1 sets forth a safety/warning device with a light emitting diode, a circuit board having first and second contacts and a switching device which includes a finger on a lens and an over-center contact. This combination of limitations was not shown or suggested by the prior art. Claims 11-15 are allowable over the prior art because Claim 11 sets forth a safety/warning device, which includes a light emitting diode, mounted a circuit board within a lens, the lens having a first portion with a smooth inner and outer surface and a lower portion and a shoulder portion, both having Fresnel lens characteristics. The circuit board has first and second contacts contacting a portable source of energy and a switch mounted on a circuit board adapted to be contacted by a finger on the lens to switch the device on and off with the switch including an over-center contact. This combination of limitations was not shown or suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
